TRANSMITTAL LETTER FOR DISKETTE CONTAINING SEQUENCE LISTING

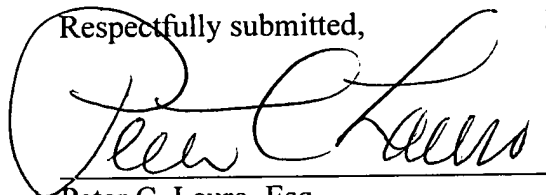

Dear Sirs:

In response to a communication received from the Examiner dated September 26, 2000 regarding the Raw Sequence Listing Error Report, we enclose a diskette which contains a computer readable form of the Sequence Listing for the above-identified application. The communication from the Examiner indicated that the Sequence Listing contained a typographical error incorrectly listing the number of sequences presented as 9 instead of 11. This error has been corrected on the diskette and substitute page 1

submitted herewith. The material on the enclosed diskette is identical in substance to the sequence listing appearing on substitute page 1 and pages 2-3 of sequence listing as originally filed. The computer readable form of the Sequence Listing contained on the enclosed diskette is understood to comply with the requirements of §§ 1.821 and 1.825.

No new matter has been added.

Respectfully submitted,

Peter C. Lauro, Esq.
